DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in Abstract "Fig. 2a" is deleted.

Allowable Subject Matter

- 2. Claims 1-12 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-12 is the inclusion of the limitation of the planar antenna further comprising a parasitic conductive element, which is attached to the dielectric support part and galvanically connected to a first terminal of the switch, a second terminal of the switch having a coupling to the ground plane. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Pankinaho et al. (U.S. Patent No. 6,693,594) teaches a radiating element with a feeding point and a grounding point. The feeding point is coupled to an antenna port of a radio device. However, the grounding point is not directly coupled to ground. Instead, there are three alternative coupling paths between the grounding point and the ground potential. In series with each impedance, there is a controllable switch respectively.

Application/Control Number: 10/646,433

Art Unit: 2821

However, Pankinaho et al. does not disclose or teach the planar antenna further comprising a parasitic conductive element, which is attached to the dielectric support part and galvanically connected to a first terminal of the switch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shih-Chao Chen whose telephone number is (571) 272-1819. The examiner can normally be reached on Monday-Friday from 7 AM to 4:30 PM, First Fri. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on (571) 272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
